

MODEL 6083

Optional Push/Pull Handles
Ease transport in full down position.
Reduces operator strain.

Patented X-Frame
Proven reliability. Dampened action during hot drops.

850lb

all height position capacity

Pneumatic Backrest
A RUGGED innovation. Provides superior operator control.

Fibercore Mattress
Reduces mattress compression for patient comfort and ease of transfer.

Fold Down Side Rails
A RUGGED innovation. Fully operational in confined spaces.

Optimal Patient Surface
29 inch frame for greater lateral stability while providing patient comfort.

Break Away Head Section
Shortest-in-Class dimensions when folded. Maximizes maneuverability in tight areas.

Headend cot Fastening Post
Matches existing cot fastener systems. Simplified integration into ambulance feet.

1600lb

lowest position capacity

Safety Bar
Assures handling confidence. Reduces lift height for smaller operators.

Optional Side Lift Handles
Provides convenient lift points for additional operators.

Easy-To-Use Release Handle
Low release force and short grip distance. Convenient for smaller operators.

Oversized Wheels
Less force required to roll.
